

# GALILEO'S SCIENCE CAFÉ

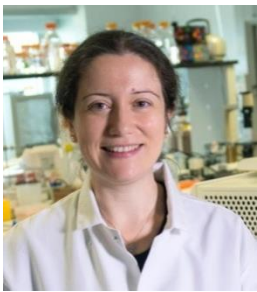

Science Night at Mason is for Everyone!

May 4, 2017

Live Demos!

## Worried about Lyme Disease?

**The fight against Lyme disease is severely hindered by the poor quality of existing diagnostic tests. Patients with a missed diagnosis harbor Lyme bacteria, which can invade their brain, heart, joints, and other tissues. Learn how nanotechnology was used to develop a new highly specific and sensitive urine test for Lyme disease that can be used for diagnosis. Also hear about ongoing efforts to develop novel tests for other tick borne diseases.**

**Presented by: Alessandra Luchni, PhD**, Associate Professor, Center for Applied Proteomics and Molecular Medicine, George Mason University

**Opening Remarks by:** Allie Cashel, Author of *Suffering the Silence: Chronic Lyme disease in an Age of Denial*

Hylton Performing Arts Center, 7:00pm-8:30pm

RSVP at: [capmm.gmu.edu/galileo-sciencecafe](http://capmm.gmu.edu/galileo-sciencecafe)
